National Female Genital Mutilation Support Clinics

The clinic is for non-pregnant women and offers a one-stop service for women who have undergone and/or are experiencing problems as a result of Female Genital Mutilation (FGM). The clinic offers a relaxed and safe environment for you and you can bring your friends or family with you for support.

The clinic offers support for people who have physical and/or psychological health issues as a result of FGM.

Our aim is to improve the uptake of emotional support and to ensure that you have the support from another woman (the health advocate) to come forward and have medical examinations that could lead to helpful procedures for you.

**Clinic days are Tuesdays,
every two weeks by appointment only**

Introducing the team from Leeds Teaching Hospitals NHS Trust

Andrea Taylor
Specialist FGM Midwife

Nicole Ackie
Specialist FGM Midwife

Introducing the Touchstone Team

Touchstone is the charity partner for the National Female Genital Mutilation Support Clinic in Leeds.

- Touchstone provides a range of innovative services that improve health and wellbeing.
- Touchstone is strongly committed to equality, independence and choice.
- Touchstone's services are shaped by the needs of service users.
- Touchstone staff are committed, resourceful and knowledgeable. They reflect the multi-cultural community in which Touchstone operates.
